**PETITION TO INTERVENE**

Before the Pennsylvania Public Utility Commission (Commission), pursuant to 52 Pa. Code Sections 5.71 through 5.74, Harold Harrison, hereby files this Petition to Intervene in the above-captioned Application(s). In support thereof, Harold Harrison, states as follows:

- **Name and contact information of the Petitioner.**
- Harold Harrison, 19 S. Main Street, Fairchance, PA 15436

2. **Name and contact information of Petitioner's attorney**

3. **Set out clearly and concisely the facts from which the alleged intervention right or interest of the Petitioner can be determined. 52 Pa. Code § 5.73(a)(1).**

*I have an interest in these proceedings as a utility rate payer & a land owner.*

4. **State the grounds of the proposed intervention. 52 Pa. Code § 5.73(a)(2).**As a resident near the proposed facilities, I enjoy the scenery & natural landscape of our area. I also appreciate the important part the wildlife and indigeneous insects of our area hat play an important part of the health and overall welfare of our community. I am also concerned for the types of health risks that this line may bring to myself and other member of my household. I am especially concerned how the proposals of this company will impact my utility rates and how

those increasing rates will limit my ability to not only pay them, but also my other bills. I am concerned how increasing utility rates will limit my ability to sell my property to those looking to purchase, if rates increase then others will not be willing to purchase homes in our area and my own ability to sell will be affected as well as neighbors which will cause blight & safety concerns in my community if rates become unaffordable and people must move away.

**5. State Petitioner's position on the issues in the proceeding. 52 Pa. Code § 5.73(a)(3).**

In consideration of 52 Pa. Code Section 57.76(a), I do not believe that there is a need for this line. Any benefit would not be for myself and others in this area who would be paying for it. I should not be required to bear these losses to provide benefit to others outside of my area. The risks to the health and safety of the public in this area include me and are unreasonable. The natural resources that will be affected will be forever changed, lost or modified, which will not be minimum as an adverse environmental impact. The need for this line has not been demonstrated to be of benefit to this area, however, will result in brown outs or worse, to our services. There are other available alternatives that should be utilized rather than allowing this line. The change to the beauty and safety of the land are unreasonable and is not supported by a legitimate need.
