RE: Tentative Order: Cancellation of Certificates Of Public Convenience For Common Carriers;
Failure To Report Positive Operating Revenue - Docket No. M-2026-3061024

Dear Mr. Homsher,

Transgas, Inc. Utility Code 856990 Docket No. A-00102319 is submitting a formal objection to the tentative order dated April 16, 2026.

While it is accurate that Transgas, Inc. has reported zero operating revenue over the past two years, our company remains actively engaged in business operations. We are currently under contract with a utility customer to provide transportation services on an as-needed basis. Under the terms of this agreement, we may be called upon at any time to perform these services, and we remain fully prepared and operationally capable of doing so.

Our lack of reported revenue during this period is not indicative of inactivity or abandonment of service authority but rather reflects the contingent nature of our contractual obligations. We continue to maintain our readiness to fulfill these obligations and to provide transportation services consistent with our certificated authority.

Transgas, Inc. respectfully requests that the Commission rescind the proposed cancellation of our Certificates of Public Convenience.

Thank you for your consideration of this matter.

A handwritten signature in blue ink, appearing to read "Dorothy Babineau".
