TO ALL PARTIES OF RECORD

Application of Sunrise Telecom, Inc. for approval to alter the public crossing (DOT 517 985 C) by the installation of an aerial fiber optic cable where Bells Lane (T-428) crosses, at grade, a single track of Norfolk Southern Railway Company located in Lower Mahanoy Township, Northumberland County.

To Whom It May Concern:

By application received by the Commission on April 8, 2026, Sunrise Telecom, Inc. seeks Commission approval to alter the public crossing (DOT 517 985 C) by the installation of an aerial fiber optic cable where Bells Lane (T-428) crosses, at grade, a single track of Norfolk Southern Railway Company located in Lower Mahanoy Township, Northumberland County.

The new aerial fiber optic cable will be attached to new utility poles installed by PPL Electric Corp. and cross above the joint right-of-way of Bells Lane (T-428) and Norfolk Southern Railway Company. The installation will provide a minimum vertical clearance of 27-feet from the top of rail to the new fiber optic cable.

The Commission hereby establishes its jurisdictional limits at the subject crossing as the area within the confines of the railroad right-of-way and the highway right-of-way.

In its application, Sunrise Telecom, Inc. states that the proposed installation is necessary due to customer growth and system integrity. Sunrise Telecom, Inc. will be directed to perform the necessary installation, provide for maintenance and protection of highway and pedestrian traffic during installation and accept future maintenance responsibility for the new facilities, at its sole cost and expense. The cost of the project is anticipated to be approximately \$40,000.

All work is to be performed in accordance with the plans entitled "EXHIBIT A," consisting of two (2) sheets submitted to the Commission with the application.

Sunrise Telecom, Inc. served a copy of the application and plans on Northumberland County, Lower Mahanoy Township, Liverpool Borough, Norfolk Southern Railway Company, the Pennsylvania Department of Transportation, PPL, and TDS Telecommunications Corp. All parties of record were queried by letter dated April 13, 2026, sent via email as to any objection to the subject application and plans. None of the parties have responded with any objection to the subject application or plans.

The Commission has exclusive jurisdiction in crossing alterations and is the final arbiter of any fees associated with a crossing application. Any conditions, including fees associated with a crossing application, must be approved by the Commission.

Upon full consideration of the matters involved, we find that a hearing is not necessary and that a Secretarial Letter may be issued approving the application.

The Commission issues this Secretarial Letter in accordance with Section 2702 of the Public Utility Code and finds that the alteration of the crossing is necessary and proper for the service, accommodation, convenience, or safety of the public.

The application of Sunrise Telecom, Inc. is approved as herein directed:
