Operating Revenues

Penalties

The following adjustment reflects the annualization of revenues associated with changes imposed during twelve months ending June 30, 2025 and projected to be imposed during twelve months ending June 30, 2026 and twelve months ending June 30, 2027. Additionally, annualized late payment charges are calculated based on revenues at the proposed rate level.

Calculation of Cash Working Capital Requirements

Charges for water service are billed in arrears on a monthly basis. The calculation set forth below reflects summarized operating revenues billed for the twelve months ended June 30, 2025 and as annualized under present rates for the twelve months ending June 30, 2026 and June 30, 2027.

The calculation further reflects the average lag in receipt of revenues less the lag in payment of operating expenses to determine cash working capital requirements.

Calculation of Cash Working Capital Requirements

The payment of interest on the Company's long term debt is made six months in arrears. Payment of interest on the Company's short term debt is made monthly in arrears. The payment of dividends on the Company's preferred stock is made quarterly in arrears. The average lag days of interest and dividend payments and the deduction of the average lag days for the receipt of revenue is calculated below to determine cash working capital requirements.

Deferred Income Tax

The following calculation is being made to reflect the federal tax difference between using accelerated and straight-line depreciation, the effects of the Tax Cuts and Jobs Act, taxable contributions and advances and normalizing the effect of the repairs and maintenance deduction for state and federal tax. This adjustment is carried as a rate base reduction.

Notes to Statement Of Income

Operating Expenses

Calculation of Uncollectible Accounts Expenses

The following adjustment develops the Company's uncollectible accounts expense claim calculated on the ratio of actual per books revenue to net write-offs.
This ratio is applied to pro forma sales at present and proposed rates.

LINE NO	DESCRIPTION	PER BOOKS	PRESENT RATES 6/30/25 AMOUNT	PRESENT RATES 6/30/26 AMOUNT	PRESENT RATES 6/30/27 AMOUNT	PROPOSED RATES 6/30/27 AMOUNT
1	Total Sales	$915,816,946	$941,860,051	$933,310,625	$953,098,389	$1,043,518,661
2	2 Year Average	1.1710%	1.1710%	1.1710%	1.1710%	1.1710%
3	Annualized Uncollectible Expense		$11,029,181	$10,929,067	$11,160,782	$12,219,604
4	Less: Amount Charged To Operating Expense					
5	During The Twelve Months Ended 06/30/2025		14,772,917

Operating Revenues

Penalties

The following adjustment reflects the annualization of revenues associated with changes imposed during twelve months ending June 30, 2025 and projected to be imposed during twelve months ending June 30, 2026 and twelve months ending June 30, 2027. Additionally, annualized late payment charges are calculated based on revenues at the proposed rate level.

Calculation of Cash Working Capital Requirements

Charges for wastewater service are billed in arrears on a monthly basis. The calculation set forth below reflects summarized operating revenues billed for the twelve months ended June 30, 2025 and as annualized under present rates for the twelve months ending June 30, 2026 and June 30, 2027.

The calculation further reflects the average lag in receipt of revenues less the lag in payment of operating expenses to determine cash working capital requirements.

Calculation of Cash Working Capital Requirements

The payment of interest on the Company's long term debt is made six months in arrears. Payment of interest on the Company's short term debt is made monthly in arrears. The payment of dividends on the Company's preferred stock is made quarterly in arrears. The average lag days of interest and dividend payments and the deduction of the average lag days for the receipt of revenue is calculated below to determine cash working capital requirements.

LINE NO.	DESCRIPTION

Deferred Income Tax

The following calculation is being made to reflect the federal tax difference between using accelerated and straight-line depreciation, the effects of the Tax Cuts and Jobs Act, taxable contributions and advances and normalizing the effect of the repairs and maintenance deduction for state and federal tax. This adjustment is carried as a rate base reduction.

LINE NO.	DESCRIPTION	PRESENT RATES 6/30/2025 AMOUNT	PRESENT RATES 6/30/2026 AMOUNT	PRESENT RATES 6/30/2027 AMOUNT

Notes to Statement Of Income

Operating Revenues

Penalties

The following adjustment reflects the annualization of revenues associated with changes imposed during twelve months ending June 30, 2025 and projected to be imposed during twelve months ending June 30, 2026 and twelve months ending June 30, 2027. Additionally, annualized late payment charges are calculated based on revenues at the proposed rate level.

Calculation of Cash Working Capital Requirements

Charges for wastewater service are billed in arrears on a monthly basis. The calculation set forth below reflects summarized operating revenues billed for the twelve months ended June 30, 2025 and as annualized under present rates for the twelve months ending June 30, 2026 and June 30, 2027.

The calculation further reflects the average lag in receipt of revenues less the lag in payment of operating expenses to determine cash working capital requirements.

Calculation of Cash Working Capital Requirements

The payment of interest on the Company's long term debt is made six months in arrears. Payment of interest on the Company's short term debt is made monthly in arrears. The payment of dividends on the Company's preferred stock is made quarterly in arrears. The average lag days of interest and dividend payments and the deduction of the average lag days for the receipt of revenue is calculated below to determine cash working capital requirements.

Deferred Income Tax

The following calculation is being made to reflect the federal tax difference between using accelerated and straight-line depreciation, taxable contributions and advances and normalizing the effect of the repairs and maintenance deduction for state and federal tax. This adjustment is carried as a rate base reduction.

Notes to Statement Of Income

Operating Revenues

Penalties

The following adjustment reflects the annualization of revenues associated with changes imposed during twelve months ending June 30, 2025 and projected to be imposed during twelve months ending June 30, 2026 and twelve months ending June 30, 2027. Additionally, annualized late payment charges are calculated based on revenues at the proposed rate level.

Calculation of Cash Working Capital Requirements

Charges for wastewater service are billed in arrears on a monthly basis. The calculation set forth below reflects summarized operating revenues billed for the twelve months ended June 30, 2025 and as annualized under present rates for the twelve months ending June 30, 2026 and June 30, 2027.

The calculation further reflects the average lag in receipt of revenues less the lag in payment of operating expenses to determine cash working capital requirements.

Calculation of Cash Working Capital Requirements

The payment of interest on the Company's long term debt is made six months in arrears. Payment of interest on the Company's short term debt is made monthly in arrears. The payment of dividends on the Company's preferred stock is made quarterly in arrears. The average lag days of interest and dividend payments and the deduction of the average lag days for the receipt of revenue is calculated below to determine cash working capital requirements.

Deferred Income Tax

The following calculation is being made to reflect the federal tax difference between using accelerated and straight-line depreciation, the effects of the Tax Cuts and Jobs Act, taxable contributions and advances and normalizing the effect of the repairs and maintenance deduction for state and federal tax. This adjustment is carried as a rate base reduction.

Notes to Statement Of Income

Operating Revenues

Penalties

The following adjustment reflects the annualization of revenues associated with changes imposed during twelve months ending June 30, 2025 and projected to be imposed during twelve months ending June 30, 2026 and twelve months ending June 30, 2027. Additionally, annualized late payment charges are calculated based on revenues at the proposed rate level.

Calculation of Cash Working Capital Requirements

Charges for wastewater service are billed in arrears on a monthly basis. The calculation set forth below reflects summarized operating revenues billed for the twelve months ended June 30, 2025 and as annualized under present rates for the twelve months ending June 30, 2026 and June 30, 2027.

The calculation further reflects the average lag in receipt of revenues less the lag in payment of operating expenses to determine cash working capital requirements.

Calculation of Cash Working Capital Requirements

The payment of interest on the Company's long term debt is made six months in arrears. Payment of interest on the Company's short term debt is made monthly in arrears. The payment of dividends on the Company's preferred stock is made quarterly in arrears. The average lag days of interest and dividend payments and the deduction of the average lag days for the receipt of revenue is calculated below to determine cash working capital requirements.

		14.6%	16.1%	6.8%	40.0%	3.9%	30.0%

Notes:

(1) Present Rate Revenue: Present Rate Revenues are developed in the sections of Exhibit 3-A that relate to each of these operations.

(2) Additional Revenue Requirement: The Additional Revenue Requirement are developed in subsequent sections of this Exhibit 3-A for each of the operations.

(3) Act 11 - Wastewater Allocation is the allocation between wastewater operations and water operations achieved by the proposed consolidation of water and wastewater revenue requirements to derive the water and wastewater rates proposed by the Company in this case.

Change in Number of Customers

The following historic revenue adjustment reflects the change in revenues due to the average change in number of customers during the twelve months ended June 30, 2025. The following future and fully forecasted revenue adjustment reflects the change in revenues due to the projected change in number of customers during the twelve months ending June 30, 2026 through June 30, 2027. Projections were based on a two year historical growth average exclusive of acquisitions.

Summary of Adjustments to Operating Revenues

The Company supplies water usage data to municipalities so they can bill their residents for sewer. The Company adjusted the 2025 per book revenues to annualize localities that are using service. In addition, the Company increases this fee annually based on the change in the CPI. An adjustment is being made in 2026 & 2027 for 3.12%, which is the two year average of the change in the CPI.

Calculation of Cash Working Capital Requirements

Charges for water service are billed in arrears on a monthly basis. The calculation set forth below reflects summarized operating revenues billed for the twelve months ended June 30, 2025 and as annualized under present rates for the twelve months ending June 30, 2026 and June 30, 2027.

The calculation further reflects the average lag in receipt of revenues less the lag in payment of operating expenses to determine cash working capital requirements.

Calculation of Cash Working Capital Requirements

The payment of interest on the Company's long term debt is made six months in arrears. Payment of interest on the Company's short term debt is made monthly in arrears. The payment of dividends on the Company's preferred stock is made quarterly in arrears. The average lag days of interest and dividend payments and the deduction of the average lag days for the receipt of revenue is calculated below to determine cash working capital requirements.

Notes to Rate Base Elements

Extension Deposits in Suspense

The Company requires customer advances for construction to extend its mains to serve new developments based upon an estimate of construction costs. At the completion of the project, entries are made to adjust estimated costs of construction to actual cost of construction. The difference is charged to the extension deposit in suspense account until it is refunded to the customer. The Commission's Order at Docket No. R-891208 approved an adjustment to rate base of an average of extension deposits in suspense. The following reflects the adjustment to rate base for such an average.

LINE NO.	MONTH	DETAIL	06/30/2026 and 06/30/2027 AMOUNT
1	June, 2024	($31,800)	
2	July	(33,300)	
3	August	(31,550)	
4	September	(32,800)

Citizens Utilities Water Company Acquisition

Customer Advances for Construction (CAC) and Contributions in Aid of Construction (CIAC) Adjustment

Paragraph 8.d of the Joint Petition for Settlement at Docket No. R-2009-2097323, which was approved by the Commission in its final order entered November 7, 2009, provides that: "for ratemaking purposes: (i) $14,147,208, or 40%, of the December 31, 2009 balance of the net customer advances for which Citizens Utilities Water Company of Pennsylvania ("Citizens") retained the refund liability upon the Company's acquisition of Citizens' water utility assets will be deemed deducted from the Company's rate base; (ii) $8,895,830 (100%) of the December 31, 2009 balance of the net contributions in aid of construction the OCA proposed to attribute to PAWC from its acquisition of Citizens' water assets will be deducted from PAWC's rate base; (iii) in future base rate cases, the foregoing balances, adjusted to reflect accumulated amortization, will be deducted for ratemaking purposes until such balances are fully amortized; and (iv) the applicable depreciation rate for PAWC's transmission and distribution mains will be used to calculate the amortization of such balances for ratemaking purposes to offset the portion of depreciation expense on gross plant in service that is related to these advances and contributions." Shown below are the adjustments that are called for by the settlement at Docket No. R-2009-2097323.

Deferred Income Tax

The following calculation is being made to reflect the federal tax difference between using accelerated and straight-line depreciation, the effects of the Tax Cuts and Jobs Act, taxable contributions and advances and normalizing the effect of the repairs and maintenance deduction for state and federal tax. This adjustment is carried as a rate base reduction.

Group Insurance

The adjustment of the group insurance cost is based on the January 2026 premiums annualized for the future test year number of employees, less the annualized employee contribution, and adjusted for the portion not charged to operations. The fully projected future test year was developed by adjusting the annualized 2026 amount by a 3 year average of 3.74%.

Operating Revenues

Change in Number of Customers

The following historic revenue adjustment reflects the change in revenues due to the average change in number of customers during the twelve months ended June 30, 2025. The following future and fully forecasted revenue adjustment reflects the change in revenues due to the projected change in number of customers during the twelve months ending June 30, 2026 through June 30, 2027. Projections were based on a two year historical growth average exclusive of acquisitions.

Usage Trend Adjustment

This adjustment is being made to normalize usage and address the change in usage trend in residential, commercial and municipal usage as well as the decline in usage that has been experienced for many years and is expected to continue to occur. Please refer to the testimony of Max McClellan (PAWC Statement No. 10).

Contributions in Aid of Construction (CIAC)

The Company receives Contributions in Aid of Construction (CIAC) on an annual basis. The Commission's Order dated April 21, 1993, at Docket No. R-922428 approved the use of a three year average to calculate the future test year additions to CIAC. The following adjustment reflects the projected CIAC to be received during the twelve months ended June 30, 2026 and June 30, 2027.

LINE NO.	DESCRIPTION	PRESENT RATES 6/30/2026 AMOUNT	PRESENT RATES 6/30/2027 AMOUNT
1	Contributions In Aid Of Construction	$50,775,567	$51,533,834
2	Plus: Three Year Average Of Contributions	758,267	758,267
5	Contributions In Aid Of Construction	($51,533,834)	($52,292,101)

Customer Advances For Construction (CAC)

The Company requires Customer Advances for Construction (CAC) for all main extensions requested by developers. New projects increase the CAC account and refunds to be made during the future test year to developers for prior year CAC decrease the CAC account. The following adjustment reflects the level of activity (advances and refunds) projected for the twelve months ended June 30, 2026 and June 30, 2027.

Calculation of Cash Working Capital Requirements

Charges for wastewater service are billed in arrears on a monthly basis. The calculation set forth below reflects summarized operating revenues billed for the twelve months ended June 30, 2025 and as annualized under present rates for the twelve months ending June 30, 2026 and June 30, 2027.

The calculation further reflects the average lag in receipt of revenues less the lag in payment of operating expenses to determine cash working capital requirements.

Calculation of Cash Working Capital Requirements

The payment of interest on the Company's long term debt is made six months in arrears. Payment of interest on the Company's short term debt is made monthly in arrears. The payment of dividends on the Company's preferred stock is made quarterly in arrears. The average lag days of interest and dividend payments and the deduction of the average lag days for the receipt of revenue is calculated below to determine cash working capital requirements.

Group Insurance

The adjustment of the group insurance cost is based on the January 2026 premiums annualized for the future test year number of employees, less the annualized employee contribution, and adjusted for the portion not charged to operations. The fully projected future test year was developed by adjusting the annualized 2026 amount by a 3 year average of 3.74%.

LINE NO.	DESCRIPTION	PRESENT RATES 6/30/2026 AMOUNT	PRESENT RATES 6/30/2027 AMOUNT

Insurance Other Than Group

The annualizations of Insurance Other Than Group (IOTG) costs were based on the actual IOTG premiums for the twelve months ending June 30, 2025, adjusted for the 5 year average of retroactive adjustments. The present rates 6/30/2026 amounts are based on twelve months ending June 30, 2025 increased by a 5 year average of 8.01%, except for Insurance Casualty Reserve, Other Insurance - Accruals, and Meter Credit that are forecast at no expense. Amounts for present rates 6/30/2027 were increased by a 5 year average of 8.01%, except for Insurance Casualty Reserve, Other Insurance - Accruals, and Meter Credit that are forecast at no expense. Present rates have been allocated to other cost of service areas based on depreciated utility plant in service as of 6/30/2025.

LINE NO.	DESCRIPTION		PRESENT RATES 6/30/2026 AMOUNT	PRESENT RATES 6/30/2027 AMOUNT

DSIC Adjustment

The 06/30/2025 pro forma revenue adjustment is being made to eliminate the Distribution System Inprovement Charge (DSIC) revenues per book for the 12 months ended June 30, 2025 in order to reset the DSIC to zero. The 06/30/2027 pro froma revenue adjustment is to annualize the DSIC revenues for 12 months ending June 30, 2027 based on the Company's pro forma level rate of 0.96%.

Penalties

The following adjustment reflects the annualization of revenues associated with changes imposed during twelve months ending June 30, 2025 and projected to be imposed during twelve months ending June 30, 2026 and twelve months ending June 30, 2027. Additionally, annualized late payment charges are calculated based on revenues at the proposed rate level.

Materials And Supplies

The Company's claim for materials and supplies at June 30, 2026 and June 30, 2027 is calculated on the basis of the average monthly balances in the material and supplies accounts for PAWC's other wastewater districts for the period of June 2024 to July 2025. This balance was divided by the total number of customers in the other wastewater districts in order to calculate the amount of materials and supplies per customer. This per customer number was then multiplied by the total number of BASA Wastewater customers to calculate the Company's claim.

LINE NO.	DETAIL	PRESENT RATES 06/30/2026 and 06/30/2027 AMOUNT
1	13-Month average of M&S for PAWC's 22 other WW SSS districts	$383,143
2	Number of customers in PAWC's 22 other WW SSS districts	57,516
3	Amount of M&S per customer	$6.66
4	Total number of BASA WW customers	15,813
5	Allowance for Materials and Supplies	
6	At 06/30/2026 and 06/30/2027	$105,315

Calculation of Cash Working Capital Requirements

Charges for wastewater service are billed in arrears on a monthly basis. The calculation set forth below reflects summarized operating revenues billed for the twelve months ended June 30, 2025 and as annualized under present rates for the twelve months ending June 30, 2026 and June 30, 2027.

The calculation further reflects the average lag in receipt of revenues less the lag in payment of operating expenses to determine cash working capital requirements.

Calculation of Cash Working Capital Requirements

The payment of interest on the Company's long term debt is made six months in arrears. Payment of interest on the Company's short term debt is made monthly in arrears. The average lag days of interest and dividend payments and the deduction of the average lag days for the receipt of revenue is calculated below to determine cash working capital requirements.

LINE NO.	DESCRIPTION

Insurance Other Than Group

The annualizations of Insurance Other Than Group (IOTG) costs were based on the actual IOTG premiums for the twelve months ending June 30, 2025, adjusted for the 5 year average of retroactive adjustments. The present rates 6/30/2026 amounts are based on twelve months ending June 30, 2025 increased by a 5 year average of 8.01%, except for Insurance Casualty Reserve, Other Insurance - Accruals, and Meter Credit that are forecast at no expense. Amounts for present rates 6/30/2027 were increased by a 5 year average of 8.01%, except for Insurance Casualty Reserve, Other Insurance - Accruals, and Meter Credit that are forecast at no expense. Present rates have been allocated to other cost of service areas based on depreciated utility plant in service as of 6/30/2025.

LINE NO.	DESCRIPTION		PRESENT RATES 6/30/2026 AMOUNT	PRESENT RATES 6/30/2027 AMOUNT

Operating Revenues

Change in Number of Customers

The following historic revenue adjustment reflects the change in revenues due to the average change in number of customers during the twelve months ended June 30, 2025. The following future and fully forecasted revenue adjustment reflects the change in revenues due to the projected change in number of customers during the twelve months ending June 30, 2026 through June 30, 2027. Projections were based on a two year historical growth average exclusive of acquisitions.

Usage Trend Adjustment

This adjustment is being made to normalize usage and address the change in usage trend in residential, commercial and municipal usage as well as the decline in usage that has been experienced for many years and is expected to continue to occur. Please refer to the testimony of Max McClellan (PAWC Statement No. 10).

Penalties

The following adjustment reflects the annualization of revenues associated with changes imposed during twelve months ending June 30, 2025 and projected to be imposed during twelve months ending June 30, 2026 and twelve months ending June 30, 2027. Additionally, annualized late payment charges are calculated based on revenues at the proposed rate level.

Contributions in Aid of Construction (CIAC)

The Company receives Contributions in Aid of Construction (CIAC) on an annual basis. The Commission's Order dated April 21, 1993, at Docket No. R-922428 approved the use of a three year average to calculate the future test year additions to CIAC. The following adjustment reflects the projected CIAC to be received during the twelve months ended June 30, 2026 and June 30, 2027.

LINE NO.	DESCRIPTION	PRESENT RATES 6/30/2026 AMOUNT	PRESENT RATES 6/30/2027 AMOUNT

Calculation of Cash Working Capital Requirements

Charges for wastewater service are billed in arrears on a monthly basis. The calculation set forth below reflects summarized operating revenues billed for the twelve months ended June 30, 2025 and as annualized under present rates for the twelve months ending June 30, 2026 and June 30, 2027.

The calculation further reflects the average lag in receipt of revenues less the lag in payment of operating expenses to determine cash working capital requirements.

Calculation of Cash Working Capital Requirements

The payment of interest on the Company's long term debt is made six months in arrears. Payment of interest on the Company's short term debt is made monthly in arrears. The payment of dividends on the Company's preferred stock is made quarterly in arrears. The average lag days of interest and dividend payments and the deduction of the average lag days for the receipt of revenue is calculated below to determine cash working capital requirements.

Tax Cuts and Jobs Act Stub Period

The following reflects the amortization of the federal income tax savings associated with the 2017 Tax Cuts and Jobs Act ("TCJA") for January 1, 2018 through June 30, 2018 (the "Stub Period"), as authorized in the settlement at Docket No. R-2020-3019369. This reflects the amortization as approved in Docket No. R-2023-3043189. The balance is fully amortized at 7/31/2026.

Deferred Income Tax

The following calculation is being made to reflect the federal tax difference between using accelerated and straight-line depreciation, the effects of the Tax Cuts and Jobs Act, taxable contributions and advances and normalizing the effect of the repairs and maintenance deduction for state and federal tax. This adjustment is carried as a rate base reduction.

Operating Revenues

Penalties

The following adjustment reflects the annualization of revenues associated with changes imposed during twelve months ending June 30, 2025 and projected to be imposed during twelve months ending June 30, 2026 and twelve months ending June 30, 2027. Additionally, annualized late payment charges are calculated based on revenues at the proposed rate level.

Materials And Supplies

The Company's claim for materials and supplies at June 30, 2026 and June 30, 2027 is calculated on the basis of the average monthly balances in the material and supplies accounts for PAWC's other wastewater districts for the period of June 2024 to July 2025. This balance was divided by the total number of customers in the other wastewater districts in order to calculate the amount of materials and supplies per customer. This per customer number was then multiplied by the total number of Brentwood Wastewater customers to calculate the Company's claim.

LINE NO.	DETAIL	PRESENT RATES 06/30/2026 and 06/30/2027 AMOUNT
1	13-Month average of M&S for PAWC's 22 other WW CSS districts	$426,365
2	Number of customers in PAWC's 22 other WW CSS districts	42,903
3	Amount of M&S per customer	$9.94
4	Total number of Elizabeth Borough WW CSS customers	669
5	Allowance for Materials and Supplies	
6	At 06/30/2026 and 06/30/2027	$6,650

Calculation of Cash Working Capital Requirements

Charges for wastewater service are billed in arrears on a monthly basis. The calculation set forth below reflects summarized operating revenues billed for the twelve months ended June 30, 2025 and as annualized under present rates for the twelve months ending June 30, 2026 and June 30, 2027.

The calculation further reflects the average lag in receipt of revenues less the lag in payment of operating expenses to determine cash working capital requirements.

Calculation of Cash Working Capital Requirements

The payment of interest on the Company's long term debt is made six months in arrears. Payment of interest on the Company's short term debt is made monthly in arrears. The payment of dividends on the Company's preferred stock is made quarterly in arrears. The average lag days of interest and dividend payments and the deduction of the average lag days for the receipt of revenue is calculated below to determine cash working capital requirements.

NOTE
Per Dan Hufton, this is an emergency connection with North Fayette that typically won't have regular use, but we want to keep active in case of emergency.
