PETITION TO INTERVENE

Before the Pennsylvania Public Utility Commission (Commission), pursuant to 52 Pa. Code Sections 5.71 through 5.74, [*Print Name of Petitioner*] Justine Davis hereby files this Petition to Intervene in the above-captioned Application(s). In support thereof, [*Print Name of Petitioner*] Justine Davis states as follows:

1. **Name and contact information of the Petitioner.** [*Provide name and address of Petitioner.*]

Justine Davis

724-366-6051

1160 Georges-Fairchance Rd.
Smithfield, Pa 15428

2. **Name and contact information of Petitioner's attorney.** [*Provide names and addresses of Petitioner's attorneys. If none, clearly state "No attorney representation."*]

No attorney rep at
this time, seeking counsel

3. Set out clearly and concisely the facts from which the alleged intervention right or interest of the Petitioner can be determined. 52 Pa. Code § 5.73(a)(1).

[Explain why the utility's proposals affect you and/or your interests. For example, you may have an interest in this proceeding as a utility ratepayer, a landowner, a resident near the facilities, and/or a business owner.]

The proposed placement with these lines will be dangerously close to our home, possibly taking our property (1160 Georges-Fairchance Rd). This will directly reduce our property value, increase our taxes + overall financial burden.

4. State the grounds of the proposed intervention. 52 Pa. Code § 5.73(a)(2).

[Explain why you are filing this Petition to Intervene. For example, you may be concerned with how the Company's proposals will impact utility rates, your property interests, your health and safety, and/or business interests.]

This proposed placement will potentially take a portion of our land. Though there maybe conflicting reports, health risks are valid concerns of ours, as well as reducing our lives work on our home's aesthetic with little direct benefit with late reduction for our bills or option for resale value.

5. State Petitioner's position on the issues in the proceeding. 52 Pa. Code § 5.73(a)(3).

[Explain Petitioner's position on the issues in the proceeding. In this regard, the PUC must make the following findings relating to the transmission facilities in order to approve the Siting Application: (1) that there is a need for it; (2) that it will not create an unreasonable risk of danger to the health and safety of the public; (3) That it is in compliance with applicable statutes and regulations providing for the protection of the natural resources of this Commonwealth; and (4) That it will have minimum adverse environmental impact, considering the electric power needs of the public, the state of available technology and the available alternatives. 52 Pa. Code Section 57.76(a)]

As a long term resident of Smithfield and direct land-owner that will be affected with these proposed power lines, I adamantly oppose this plan. We have worked to own a piece of property (approx 1.45 acre). Your proposal will take what little we have + can affect in this day and age. We are college educated, hard working people that still have worries about bills and our health. This will further increase our financial burden, take part of our home/land/aesthetic + overall property value should we even choose to move. There are also several concerns (risks) with this close of a placement to EMF Exposure any in fact. I hope that you could reconsider placement & how this act will impact our lives + our children's lives.
