Dear Secretary,

This Comment is in response to the tentative order issued on April 16<sup>th</sup>, 2026 but not yet published. This company challenges that order and asks to maintain their current Certificate of Public Convenience. Although there was no positive revenue reported in the years you have reviewed, there was, however, positive revenue reported in the year 2025. As you know businesses, especially in the transportation industry, change from year to year and this business anticipates to remain having positive revenue in the following years making them eligible to remain having a Certificate of Public Convenience.

Thank you for your consideration in this matter and I look forward to hearing from you promptly on this matter.

Sincerely,

Reed Maryott  
Maryott Trucking
