RULES AND REGULATIONS

4. Service Pipes (cont'd)

4.6 Check Valve, Backflow Prevention Device and Service Pipe Strainers

A minimum of an approved American Society of Sanitary Engineering 1024 (ASSE 1024) dual check valve shall be installed on all service pipes for residential service. Residential accounts having a lawn irrigation system or fire sprinkler system will be required to install a reduced pressure zone backflow prevention device on the line which services this part of the customer's system. Reduced pressure zone devices are to be tested and/or repaired annually. On service pipes for commercial or industrial service, a backflow prevention device of a type approved by the Company shall be installed. The location of the double check valve or backflow prevention device shall be approved by the Company. Service pipes used for fire protection must in addition have an approved fire service pipe strainer. The double check valve and backflow prevention device shall be owned and maintained by the Customer. Non-residential Customers shall certify annually, in writing to the Company, that these devices have been maintained and are in working order. This is to include a test and /or repairs performed by an inspector who is a certified backflow prevention device tester. They are also subject to Company inspection at reasonable times. A backflow prevention device tester must be certified by an entity that performs training to test and repair Check valves and backflow prevention devices which meet or exceed American Society of Sanitary Engineering (ASSE), American Backflow Prevention Association (ABPA) or equivalent standards and provides certification that such training has been completed in accordance with these requirements.

4.7 Pressure Regulators

When the static pressure is 100 lbs. or more at the Customer's premise, the Customer shall be responsible for the installation and maintenance of a pressure regulator or valve, which shall be installed on the inlet side of the meter. **For customers in Dimock Township, Susquehanna County, whose premises are shown on Exhibit E of PAWC's Application at Docket Number A-2023-3043501: Where static pressure is 150 lbs. or more at the Customer's premises, the Company may install and maintain a pressure regulator or valve on the inlet side of the meter.** (C)

4.8 Water use Standards for Plumbing Fixtures

The Company may refuse to connect with any piping system or furnish water through one already connected in any new construction or renovation which does not comply with the Company's water use standards for plumbing fixtures.

4.9 Customer Responsibility for Service Pipe

The Customer shall have full responsibility for the installation, repair, replacement, and maintenance of all Service Pipes, including full responsibility for metered water usage attributable to a leak in the Service Pipe; The failure of a Customer to properly install and maintain a Service Pipe, including replacement, shall constitute grounds for the Company to initiate action to terminate service to the Customer and seek recovery for any damage to the Company's facilities caused by an improperly functioning Service Pipe. Where an undetected, non-surfacing, underground leak is found in a Customer's Service Pipe, the Company shall credit the Customer with a one-time bill adjustment equal to forty percent (40%) of that portion of one month's consumption that exceeds the average monthly usage, based on the prior twelve month period, upon proper verification that the leak has been repaired. The Company may require documentation to establish, to the Company's satisfaction, the existence of such repaired leak at the Customer's premises. Such bill adjustment will be provided only to the extent the Customer has not received a bill adjustment for an undetected, non-surfacing, underground leak at the same premises in the past five (5) years. **For customers in Dimock Township, Susquehanna County, whose premises are shown on Exhibit E of PAWC's Application at Docket Number A-2023-3043501: The Company will install and maintain the service pipe at the time of initial installation of the service pipe and for one year thereafter. After that one-year period, Rule 4.9 will apply without modification to the Customer's premises.** (C)
