Dear Pennsylvania Public Utility Commission,

I am writing on behalf of Always Towing, LLC to formally request the continued maintenance of our PUC number and to prevent its cancellation.

Our PUC number is essential to the daily operation of our business. It authorizes us to legally provide transportation/services within the regulated framework and ensures we remain compliant with all the applicable state and federal requirements. Without this number, we would be unable to operate, which would significantly disrupt our services, impact our customers, and result in financial hardship for our company and employees. We are AAA's priority towing company for northern berks. We also provide towing services for local police departments.

Additionally, maintaining an active PUC number allows us to:

- Continue serving our existing client base without interruption
- Uphold contractual obligations and commitments
- Ensure compliance with safety, insurance, and regulatory standards
- Support our workforce and maintain business continuity that we have been providing the last 12 years

We value our standing and compliance with all the regulatory requirements and are committed to meeting any obligations necessary to keep our PUC number active. If there are specific documents, fees, or corrective actions required, we are fully prepared to address them promptly. We have always mailed in the paperwork packet but we're missing the revenue sheets.

We respectfully request that our PUC number remain active and that any pending cancellation be considered. Please let us know if further information is needed to support this request.

Thank you for your time and consideration.

Sincerely,

Crystal Bingaman

Office manager
