Re: Docket No. M2026-306-1024
Cancellation of Certificates of Public Convenience for Common Carriers

PUC# A-00113442

To Whom It May Concern:

I am writing on behalf of T.L. Bressler & Son, Inc., in response to the proposed cancellation of our Certificate of Public Convenience for absence of reported positive operating revenue.

Currently, our company is classified as an exempt reporter and has not been actively utilizing its PUC authority for reportable revenue-generating operations. We respectfully request that the Commission consider allowing our authority to remain in place in light of our exempt reporting status and anticipated future business needs.

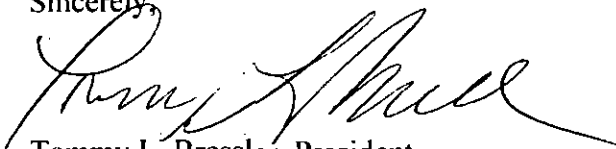

In lieu of cancellation, we ask that our certificate be placed in a **dormant or inactive status**, if such an option is available under Commission regulations. Maintaining the certificate in this manner would allow us to preserve our authority while not actively operating and would prevent the need to reapply in the future should business needs change.

We are evaluating potential future business endeavors that may necessitate the reactivation of our PUC authority. Cancellation at this time would create unnecessary administrative and financial burden to reinstate such authority should it become necessary.

Please advise if there are any additional filings, documentation, or compliance measures required to maintain our authority in good standing.

Thank you for your time and consideration of this request.

Sincerely,

Tommy L. Bressler, President
