Re: Cancellation Of Certificates Of Public Convenience For Common Carriers:  
Failure To Report Positive Operating Revenue  
Docket No. M-2026-3061024

Dear Motor Common Carrier:

By a Tentative Order entered **April 21, 2026**, at the above-captioned docket, the Public Utility Commission (Commission) reached a **tentative determination** to cancel your company's Certificate of Public Convenience (CPC) because our fiscal assessment database shows that the company has filed annual assessment reports for at least two (2) consecutive years that indicate **zero** jurisdictional total gross intrastate operating revenues for fiscal assessment purposes. The Commission plans to publish a notice of this Tentative Order in the **June 6, 2026** edition of the *Pennsylvania Bulletin*.

As stated in the Tentative Order, the Public Utility Code requires a certificated common carrier to file a report by March 31st of each year that details its total jurisdictional gross intrastate operating revenue for the preceding calendar year for assessment purposes. 66 Pa.C.S. § 510(b). If you received a copy of this Tentative Order from the Commission, the Commission has tentatively determined that your company has failed to establish that they are operating continuously as required by the Public Utility Code and our regulations due to the reporting of zero jurisdictional intrastate revenue for at least two consecutive years. Since this is a tentative determination, you have the following two options to respond to the Tentative Order:

**1. Challenge the Tentative Order.** If you choose to dispute the Commission's tentative finding in the Tentative Order, you must file written comments at Docket No. M-2026-3061024 with the Commission within **30** days of the June 6, 2026, publication of the Tentative Order in the *Pennsylvania Bulletin*. Please also include both the M-2026-3061024 docket number and your company's A-Docket number at the top of the written comment.

However, please be mindful that a representative from your company has submitted an annual assessment form to the Commission for at least two consecutive years and affirmed that the company has had **zero** jurisdictional intrastate operating revenue for assessment purposes after applying all applicable exemptions—meaning your **company has indicated that it has not provided jurisdictional service as defined by the Public Utility Code during the last two calendar years**. Consequently, your written comments must provide sufficient verifiable documentation including but not

To whom it may concern: 5/12/26

I would like to respectfully ask that my company RMP Inc. be considered to remain active as a PUC motor carrier.

We have been actively running freight in the Southeast region for the past couple of years so that I could help my mother take care of my ailing father. Who recently passed away on 4/18/26.

I fully expect to begin running local freight in PA in the near term.

Sincerely

Harold Duncan  
RMP Inc
