Dear Mr. Homsher,

This letter is in regards to docket # A-2021-3025807, # M-2026-3061024 Tentative Order of cancellation of my PUC certificate (A-8924126) due to Failure to report positive operating revenue.

As I have submitted a letter of comments previously I feel this may be an unjust and improper decision based on the fact that to my knowledge I have in fact submitted all the necessary paperwork on time to stay in compliance with PUC Regulations. I also wanted to state that I was told in 2021 when I started that penndot requires a PUC number, so I am a little confused. I also understand some things are exempt but the material is used for a Penndot job or Pendot location, I have a 1099 for Nesei Enterprise proving that. For example I haul a lot of asphalt to pave highways such as 78-81-83 Pa Turnpike. To my understanding the FMCSA also requires me to hold a PUC number and have been told to keep my truck registration valid I need a PUC number. For these reasons I am a little confused on why I am receiving this tentative order and hope this is just a miscommunication. Please let me know what other info you would need to clear this issue up as soon as possible so I may continue to work.

Sincerely,

Daniel T. Seitz
