Re: Response to Cancellation of Certificate of Public Convenience
Docket# M-2026-3061024

Dear Secretary Homsher:

I recently received notice regarding the cancellation of my PUC authority. I respectfully request that my authority remain active while my amended assessment report is reviewed and processed.

I previously submitted a response to this matter; however, that request was denied because my filing still reflected only exempt revenue. At the time, I unintentionally failed to include income from hauling stone and coal, which I began hauling in October 2025 in addition to my regular log hauling operations.

For many years, my business operations have primarily consisted of hauling logs for other parties, which has historically been treated as exempt revenue on my PUC assessment reports. When completing my assessment report, I mistakenly reported only the exempt log hauling revenue and overlooked the non-exempt stone and coal hauling income. This was an honest oversight on my part and was not an attempt to avoid reporting requirements. I sincerely apologize for this error.

I respectfully request that the Commission reconsider the proposed cancellation, as the zero-revenue reporting resulted from an incomplete filing rather than an actual lack of business activity.

I am submitting an amended report through the PUC portal with the corrected information to accurately reflect both the exempt and non-exempt hauling revenue. Supporting documentation is enclosed with this letter.

Thank you for your time and consideration of this matter. I appreciate the opportunity to correct this filing and remain in compliance with Commission requirements.

Sincerely,

Sheri Kern
