Docket No. M-2026-3061024

To Whom It May Concern:

In response to the Tentative Order, we received about Cancellation of Certificated of Public Convenience for Common Carriers.

We have been told by a PUC officer, as well as the construction companies that we haul for, that we need our PUC number, to do business with them, even though the things we are hauling are listed under non-jurisdictional services. With the fuel industry being in such a volatile state, it is possible that we would need to haul product under a different shipper. At this time we haul all our own product, but in some instances it would have been cheaper for us to pull from another supplier, and if we do that in the future we need a PUC number. We are not sure if the way things are filed has been changed, we have always filed a 0 jurisdictional intrastate revenue, and it has just now become a problem.
