TO ALL PARTIES OF RECORD

Application of UGI Utilities, Inc. - Gas Division for approval of the alteration of the crossing (DOT 591 391 B) where State Route 3009 (Ruppsville Road) crosses, at grade, track of Norfolk Southern Railway Company by the installation of an underground 12-inch steel gas line encased in a 20-inch steel casing pipe in Upper Macungie Township, Lehigh County.

To Whom It May Concern:

By application received by the Commission on April 16, 2026, UGI Utilities, Inc - Gas Division (UGI) seeks Commission approval to alter the at grade crossing (DOT 591 391 B) by the installation of an underground 12 inch steel gas main encased in a 20 inch steel casing pipe where State Route 3009 (Ruppsville Road) crosses a single track of Norfolk Southern Railway Company in Upper Macungie Township, Lehigh County.

UGI proposes to install the new underground 12-inch steel gas line encased in a 20-inch steel casing pipe using the jack and bore method. The new line will have approximately 5.5 feet of cover between the top of the casing pipe and the bottom of the tracks.

The Commission hereby establishes its jurisdictional limits at the subject crossing as the area within the confines of the railroad right-of-way and the highway right-of-way.

In its application, UGI states that the proposed gas line is necessary to tie together two existing gas lines to increase load capacity in the area. UGI will be directed to perform the necessary installation, provide for maintenance and protection of highway and pedestrian traffic during installation and accept future maintenance responsibility for the proposed facilities, at its sole cost and expense. The cost of the project is anticipated to be \$1,465,000.

All work is to be performed in accordance with the plans hereby entitled: "EXHIBIT A" consisting of three (3) sheets submitted to the Commission with the application on April 16, 2026.

UGI has served a copy of the application and plan on the Lehigh County Authority, County of Lehigh, Verizon Business, Upper Macungie Township, PPL Electric Utilities Corporation, First Energy Corporation, Norfolk Southern Railway Company, and the Department of Transportation of the Commonwealth of Pennsylvania. All parties in interest were queried by letter dated April 21, 2026, sent via email as to any objection to the subject application and plans, and none of the parties have responded with any objections.

The Commission has exclusive jurisdiction in crossing alterations and is the final arbiter of any fees associated with a crossing application. Any conditions, including fees associated with a crossing application, must be approved by the Commission.

Upon full consideration of the matters involved, we find that a hearing is not necessary and that a Secretarial Letter may be issued approving the application.

The Commission issues this Secretarial Letter in accordance with Section 2702 of the Public Utility Code and finds that the alteration of the crossing is necessary and proper for the service, accommodation, convenience or safety of the public.
