Previous Experience in the Natural Gas Industry

Wholesale Energy Corp ("Wholesale Energy" or "the Company") is a commercial energy brokerage and advisory firm specializing in natural gas procurement for commercial and industrial customers in deregulated markets. The Company was founded in 2024 and has been actively brokering retail natural gas supply for approximately two years. While the entity itself is relatively new, the Company's leadership brings over 15 years of direct experience in the retail natural gas and electricity brokerage industry across the United States and Canada, including the development and management of multi-state agent networks, established supplier and channel partner relationships, and consistent revenue growth across deregulated markets. A detailed professional resume for the Company's President is included as Exhibit 8E.

Authorizations in Other States and Jurisdictions

Wholesale Energy maintains active commodity registrations covering retail natural gas brokerage activity in New York and New Jersey, where state registrations are commodity-inclusive of both electricity and natural gas. The Company also conducts natural gas brokerage activity in Illinois, where state-level licensure is not required for natural gas agents, brokers, or consultants. The Company maintains active retail electricity authorizations in Texas, Illinois, New Jersey, and New York.

Customer Base in Other Jurisdictions

Wholesale Energy currently services a portfolio of commercial and industrial natural gas customers across its authorized markets. The Company's customer base is concentrated in mid-sized to large commercial accounts, including multi-location retailers, manufacturers, warehousing and logistics operators, multifamily property portfolios, and commercial property managers.

Staffing Structure and Training

Wholesale Energy operates with a lean leadership team supported by sales and account servicing personnel responsible for customer onboarding, communications, and ongoing account support. All personnel acting on behalf of the Company are required to follow company-approved sales practices and comply with applicable federal, state, and utility-specific regulations governing customer-facing communications. Training and guidance are provided regarding contract structures, customer disclosures, and compliance with PUC standards of conduct.

Business Plan for Pennsylvania Operations

Wholesale Energy's initial Pennsylvania activity will focus on supporting existing multi-state commercial clients with locations in Pennsylvania and serving qualified referrals from the Company's existing customer base and partner network. As the Company establishes operations, it intends to expand its Pennsylvania presence through direct outreach to mid-market and large commercial customers, with a focus on consultative procurement support, market analysis, and contract management. The Company will operate exclusively as a broker/marketer and will not take title to natural gas or process customer billing.

Dear Jared Kocuipchyk:

We are pleased that Wholesale Energy Corp has applied for a license to provide Natural Gas Broker/Marketer Services on the distribution system of Columbia Gas of Pennsylvania, Inc. ("Columbia Gas").

Under Paragraph 2.4.5 of the Rules Applicable to Distribution Service section of the Tariff of Columbia Gas, Wholesale Energy Corp could be required to provide to Columbia Gas a bond or other financial security instrument in an amount that Columbia Gas determines to be appropriate. Wholesale Energy Corp has indicated only brokering and consulting services will be provided. Therefore, we have determined at this time that Wholesale Energy Corp does not need a bond or other financial security requirement to provide broker natural gas services to Columbia Gas customers.

If the creditworthiness requirement or Columbia Gas' exposure to Wholesale Energy Corp changes in the future, Columbia Gas might deem it appropriate to require Wholesale Energy Corp to provide a bond or other financial security instrument.

Please feel free to contact me at 614-460-4881 should you have any questions regarding a bond or other financial security instrument requirements of Columbia Gas.

Sincerely,

Debbie Vair

Dear Jared,

National Fuel Gas Distribution Corporation ("NFGDC") is aware Wholesale Energy Corp (WEC) has filed an application with the Pennsylvania Public Utility Commission to supply natural gas service to the public in Pennsylvania and specifically within the service territory of NFGDC.

As you know, in making such an application, WEC must furnish acceptable security to each utility where WEC will do business. As such, under its tariff, NFGDC could require WEC to provide a bond or other financial security instrument in an amount that NFGDC determines to be appropriate.

However, you have indicated, and it is NFGDC's understanding that WEC intends only to provide natural gas aggregating, brokering and consulting services at this time. You have stated that, in performing these services, WEC will never take title to any delivered natural gas, nor will it accept any customer payments or deposits.

Based upon your representations, NFGDC has determined that, at this time, WEC does not need to post a bond or other form of security to operate in its service territory. However, if the services provided by WEC change in the future, NFGDC reserves the right to require security from WEC as it deems appropriate.

If you have any questions concerning the foregoing, please contact me at 716-857-7541.

Yours truly,

RE: Wholesale Energy

Dear Mr. Kocuipchyk:

We understand that Wholesale Energy has applied with the Pennsylvania Public Utility Commission to supply natural gas services to the public in Pennsylvania, including our company's service area.

Pursuant to 66 Pa.C.S. § 2208(c), an applicant for a natural gas supplier license must furnish security to each utility where it will do business to ensure the supplier's financial responsibility. To this end, Valley Energy periodically will perform a credit review and analysis of Wholesale Energy when Wholesale Energy begins to serve customers on Valley Energy's system. Valley Energy will determine whether Wholesale Energy must post a security based on the credit review, the types of customers served, the volumes expected to be delivered for those customers and the other rules in Valley Energy's Supplier Tariff. At this time, no security is being requested; however, if the services provided change in the future, we reserve the right to require security from Wholesale Energy as deemed appropriate.

If you have any questions, please contact Jamie Beale at 570-888-9664 (Ext. 5232).

Sincerely,

Re: Bonding Requirements

Dear Jared Kocuipchyk:

PECO is aware that Wholesale Energy Corporation has applied for a license to provide brokering and consulting services to commercial and industrial customers on the distribution system of PECO.

In making such an application Wholesale Energy Corporation could be required to provide to PECO a bond or other acceptable financial security in an amount that PECO determines to be appropriate. Wholesale Energy Corporation has indicated that it intends to provide only brokering and consulting services to commercial and industrial customers; will not take title to any delivered natural gas; nor will accept any customer payments or deposits.

Therefore, PECO has determined at this time that Wholesale Energy Corporation does not need a bond or other financial security requirement, since they are not directly engaging in business with PECO and only providing brokering or consulting services to PECO customers. However, if the services provided by Wholesale Energy Corporation or the creditworthiness requirement for PECO's exposure to Wholesale Energy Corporation changes in the future, PECO reserves the right to require Wholesale Energy Corporation to provide a bond or other financial security instrument.

If you should have any questions regarding this matter, please contact Trevor Hope at Trevor.Hope@exeloncorp.com.

RE: Wholesale Energy Corp.
 Application to Serve as a Natural Gas Broker

Dear Mr. Kocuipchyk,

Based on your assertion that Wholesale Energy Corp. ("Wholesale Energy") is applying with the State of Pennsylvania to operate as a natural gas broker/marketer, UGI Utilities, Inc.-Gas Division ("UGIU") has concluded that Wholesale Energy will not need to post security with UGIU. This is based on the declaration that Wholesale Energy will be acting in conjunction with a licensed natural gas supplier who has been approved by the Pennsylvania Public Utility Commission to serve in the applicable UGIU service territories and who has posted the required financial security as specified in the UGIU Tariff. If Wholesale Energy wishes to directly serve Choice customers in the service territories of UGIU in the future as a natural gas supplier, it will have to post security as specified in the UGIU Tariff prior to the commencement of the service.

Please feel free to contact me with any additional questions you may have.

Dear Jared Kocuiipchyk:

We are pleased that Wholesale Energy Corp. has applied for a license to provide natural gas services on Peoples Natural Gas Company LLC. Specifically you have requested to be licensed as a supplier on the distribution systems of Peoples Natural Gas Division and Peoples Gas Division (formerly Peoples TWP).

Since Wholesale Energy Corp. is not currently serving customers on the Peoples systems, we have determined at this time that Wholesale Energy Corp. does not need a bond or other financial security requirement to provide these services to the Company's customers.

If a Pool is established, and customers are enrolled which alters the creditworthiness requirement or the Company's exposure to Wholesale Energy Corp.'s provision of services on the Peoples' system in the future, the Company may deem it appropriate to require a bond or other financial instrument.
