## VIA ELECTRONIC FILING

Matthew L. Homsher, Secretary  
Pennsylvania Public Utility Commission  
Commonwealth Keystone Building  
400 North Street, 2<sup>nd</sup> Floor North  
Harrisburg, PA 17120

**Re: Letter of Notification of PECO Energy Company Filed Pursuant to 52 Pa. Code §§ 57.71 *et seq.* for Approval of the Siting and Construction of the 220-39 Line and 220-97 Line Located in Marcus Hook Borough and Lower Chichester Township, Delaware County, Pennsylvania  
Docket No. A-2026-3059976**

Dear Secretary Homsher:

Enclosed for filing in the above-captioned proceeding is PECO Energy Company's Response to the Data Request of the Bureau of Technical Utility Services, Question No. A-5.

As indicated on the enclosed Certificate of Service, copies have been served upon all parties of record.

If you have any questions, please call me directly at 215.963.5384.

Very truly yours,

KMK/ap

Enclosure

c: Per Certificate of Service (w/encls.)

County, Pennsylvania :**

---

**RESPONSE OF PECO ENERGY COMPANY  
TO DATA REQUEST OF THE BUREAU OF TECHNICAL UTILITY SERVICES**

---

**TUS-A-5:**

Reference the Letter of Notification, Attachment 2, Item 23. Please provide the approximate cost of the second alternate solution.

**RESPONSE:**

The second alternate solution PECO referenced in the Letter of Notification, Attachment 2, Item 23, would require PECO to acquire the 220-86 Line and 220-87 Line, which are generator lead lines that deliver power from the Phillips Island generation facility and interconnect to the Linwood Substation and run adjacent to the Post Substation. These lines are owned by an unaffiliated third party and PECO estimates it would cost several million dollars to acquire these lines. Thereafter, PECO would need to modify these lines at the Post Substation to a new bus location, which would cost another approximately \$4 million. Further, PECO would need to expand the Post Substation to support the cut in of these lines, which PECO estimates would cost approximately \$42 million. PECO notes that the proposed Project is the most practicable solution to increase the reliability of the Post Substation, and given the technical complexity of the potential alternative, PECO did not perform a formal evaluation of this alternate project.
