BEFORE THE PENNSYLVANIA PUBLIC UTILITY COMMISSION

DOCKET NO: [A-2025-3058927 A-2025-3058928 A-2025-3058929

IN THE MATTER OF:

[YOUR FULL NAME],
Luis Francisco

v.

AQUA PENNSYLVANIA, INC.
(and/or its corporate parents, subsidiaries, and corporate successors, including Essential Utilities, Inc.),
Respondent

PETITION FOR SHARE ADJUDICATION IN RECOGNITION OF UNIFIED BOOKS AND RECORDS UNDER THE MASTER INDENTURE

TO THE HONORABLE ADMINISTRATIVE LAW JUDGE AND MEMBERS OF THE PUBLIC UTILITY COMMISSION:

The Complainant, acting in full legitimate right and for the protection of historical proprietary and institutional rights, respectfully submits this formal petition in response to the allegations of the Respondent (Aqua Pennsylvania, Inc.). The Complainant hereby ratifies the demand for the adjudication of the corresponding corporate shares, grounded upon the following facts, chronology, and principles of corporate and securities law:

I. ADMITTED FACT CONSTITUTING SUCCESSOR LIABILITY: THE UNIFICATION OF BOOKS AND RECORDS

1. There exists as official evidence within the record of this case the **formal written admission by the Respondent**, acknowledging that the financial books and records of the original issuing corporation, *Rutherford Heights Water Supply Company*, were formally unified under the **Master Indenture of 1941**for total system consolidation.
2. Under the corporate laws of the Commonwealth of Pennsylvania regarding Successor Liability and *De Facto* Merger, the voluntary unification of accounting records constitutes an explicit legal acceptance of the transfer of accounts. The Respondent cannot exploit the inherited corporate franchises, commercial contracts, and rights-of-way without identically assuming the financial obligations and equity rights attached to them.

Luis Francisco

II. SPECIFICATION OF CREDITS AND MATERIAL EVIDENCE OF CONTRACTUAL DEFAULT

3. The Complainant's right is sustained by the physical, legitimate, and intact possession of a consolidated block of preferred debt certificates issued by the *Rutherford Heights Water Supply Company* (First Mortgage).
4. As physical and irrefutable proof that this obligation was never liquidated or redeemed by the Trustee bank or by any corporate successors, the entirety of the individual certificates retain intact the vast majority of their original preferred interest coupons, proving a state of uninterrupted contractual default.

III. THE TRUE CHRONOLOGY: THE DEFAULT PERIOD PRE-DATING 1941

5. The Respondent commits a severe chronological omission by attempting to date the financial effects of this obligation exclusively from the execution of the 1941 agreement. The physical certificates prove that the original company entered into default shortly after their initial issuance, establishing an extensive period of prior accumulated default before the consolidation of the Master Indenture of 1941.
6. Upon unifying the financial books, the acquiring corporation actively integrated this matured liability into its consolidated balance sheet. Said obligation has remained active within the corporate history of the company, serving as a platform for continuous financial leverage for the growth and market expansion of the Respondent.

IV. VALUATION FORMAT CAPITALIZED AT THE RATE OF THE SECURITIES MARKET

7. Because this liability has remained within the unified books of a public utility corporation fully active in the financial market, said obligation has operated as a capital engine, enabling the Respondent to issue multiple series of modern supplemental indentures using the original infrastructure as real collateral.
8. The equitable format to determine the present value of this interest requires applying the historical compound performance criteria of the capital markets onto the total mass of the obligation during the actual default period, updating the balance at the active rate of the securities market.

V. SPECIFIC DEMAND FOR PREFERRED SHARES WITH VOTING RIGHTS

9. The absorption of the corporate assets of the *Rutherford Heights Water Supply Company* historically entailed the creation of a corporate stock fund intended specifically to represent and back this liability within accounting reserves.
10. Holding First Mortgage title rights over the foundational franchises and rights-of-way of the system, the Complainant demands the restitution and materialization of this proprietary interest through the **direct adjudication of Preferred Shares with Voting Rights** equivalent to the present value of the obligation accumulated at the market rate.

PRAYER FOR RELIEF

Wherefore, the Complainant respectfully requests this Honorable Commission and the Administrative Law Judge to:

- **FIRST:** Accept this Petition as formally filed in due time and form, ordering its immediate incorporation into the official record of the case.
- **SECOND:** Order the Respondent to disclose, identify, and open the corporate stock reserve fund established under the 1941 Indenture and its unified records to determine the current equity equivalence of the obligation.
- **THIRD:** Order the Respondent to proceed with the financial regularization of the account through the immediate issuance, adjudication, and delivery to the Complainant of the **Preferred Shares with Voting Rights** that legitimately represent this capital participation. [1]

Respectfully submitted, in the Commonwealth of Pennsylvania.

Complainant's Signature: Luis Francisco tel4844560318 / 737 n lacrosse st Allentown pa 18109/ Providence1133@gmail.com
