Re: Periodic Review of PECO Energy Company's Long-Term Infrastructure Improvement Plan for its Gas Operations.

Dear Brendan Taylor and Amy Neufeld:

The Commission is required to review a utility's Long-Term Infrastructure Improvement Plan (LTIIP) periodically, but at least once every five (5) years.[1] Unless otherwise directed, the review shall begin at the midpoint of the term of the current LTIIP. PECO Energy Company's (PECO) current LTIIP for its gas operations began with calendar year 2023 and thus the midpoint was approximately July 1, 2025.

PECO is hereby notified that the Commission will begin the review of its LTIIP on August 17, 2026, at the above captioned docket number. The Commission's review will determine:

1. If PECO has adhered to its LTIIP.
2. If changes to the LTIIP are necessary to maintain and improve the efficiency, safety, adequacy and reliability of PECO's existing distribution infrastructure.

Upon completion of the review, the Commission shall issue an Order with a determination of whether or not PECO has adhered to its LTIIP and if any changes to the LTIIP are necessary. The Commission will direct PECO to revise, update, or resubmit its LTIIP as appropriate if it determines PECO's approved LTIIP is no longer adequate to ensure and maintain efficient, adequate, safe, reliable and reasonable service. Upon such a determination, PECO may elect to withdraw its LTIIP rather than comply with the Commission's direction. PECO's approved distribution system improvement surcharge (DSIC) mechanism would immediately terminate upon such a withdrawal.

[1] 52 Pa. Code § 121.7(a).

To aid in its review the Commission is establishing a thirty (30) day comment period beginning from the date of this letter and a twenty (20) day reply comment period.[2] A copy of this letter has been served upon the statutory advocates, the Bureau of Investigation & Enforcement, and the parties of record from PECO's most recent base rate case proceeding, consistent with the LTIIP filing and review procedures.[3] For comments, the Commission strongly encourages submission through efiling with the Secretary of the Commission by opening an efiling account through the Commission's website and accepting eservice at https://efiling.puc.pa.gov. The Commission is accepting all public documents through our efiling system at this time.

If you have any questions regarding this matter, please contact Matthew Stewart in the Bureau of Technical Utility services at mattstewar@pa.gov, or 717-214-1936.

Sincerely,

Matthew L. Homsher

Matthew L. Homsher
Secretary
