**BEFORE THE
PENNSYLVANIA PUBLIC UTILITY COMMISSION**

Application of EnergyNation Solutions LLC d/b/a
EnergyNation for a License to Operate as a
Broker/Marketer of Natural Gas Services in the
Commonwealth of Pennsylvania

Docket No. A-2026-3062007

Data Request No. 2. Reference Application, Section 4.f, Start Date — Applicant listed that it intended to start actively marketing within the Commonwealth of Pennsylvania on December 1, 2025. Please explain what marketing activity the applicant has begun to date, including any transactions completed.

Response:

The December 1, 2025, date stated in Section 4.f reflected the Applicant's anticipated marketing start date at the time the Application was originally prepared and first submitted in September 2025 under docket number A-2025-3057710. The original application was administratively rejected and, at the direction of the Secretary's Bureau, was refiled on April 24, 2026, at the current docket. The December 1, 2025, date was inadvertently carried forward from the original submission and is no longer the Applicant's anticipated start date.

The Applicant has not begun any marketing of natural gas supply or brokerage services within the Commonwealth of Pennsylvania, has not solicited or enrolled any natural gas customers in the Commonwealth, and has completed no natural gas transactions in the Commonwealth. The Applicant will not commence any natural gas marketing activity in Pennsylvania unless and until the Commission grants the requested license. The Applicant's revised anticipated start date for active marketing within the Commonwealth is approximately thirty (30) days following the grant of the license.

Under its electric broker license approved by the Commission in Docket A-2026-3060264, EnergyNation has performed electricity brokerage activities.
