Re: Petition of Springhouse Waterworks Inc. for Waiver of the 180-Day Filing Period
Under 52 Pa. Code §§ 53.51a and 53.52(b)(2)

Dear Attorney Snyder:

On July 31, 2026, Springhouse Waterworks Inc. (the Company) filed for a waiver of 52 Pa. Code §§ 53.51a and 53.52(b)(2) concerning the time period between the end of an historic test year and the date on which a proposed increase in base rates is filed. 52 Pa. Code §§ 53.51a and 53.52(b)(2) define the historic test year for a small water public utility or a small wastewater public utility or a municipal corporation as the experienced 12-consecutive-month period ending no later than 180 days prior to the rate filing, and that the operating income statement be filed with the same period ending date as the historic test year.

The Company requests an extension granting authority to file data in support of a proposed increase in base rates based upon an historic test year ended December 31, 2025 after the 180-day expiration date. The Commission grants your request; however, in return the Company shall agree to delay the effective date of the tariff supplement by two weeks.
