Applicant states it has no complaint history in any of the states that it is licensed.

V. MOTION FOR PROTECTIVE ORDER

Application seeks confidential treatment of certain redacted information filed in attachments with the Application. Applicant indicates that these documents contain highly proprietary and confidential commercial and financial information, the disclosure of which to competitors would likely be detrimental to Petitioner given the highly competitive nature of the electric industry. The Commission has reviewed the request for confidential treatment and finds that it is appropriate to grant a two-year period of confidential treatment for the redacted information in the attachments to the Application. The Commission concurs with Applicant that disclosure of the redacted information and use by a competitor is apt to cause the Applicant competitive harm. Applicant's confidential information in the Commission's possession should, therefore, be accessible only by the Commission and Commission Staff, unless such information is or becomes publicly available from another source.

VI. COMMISSION CONCLUSION AND CERTIFICATE OF SERVICE AUTHORITY

The Commission has reviewed the Application and Responses including all attachments provided by Applicant regarding the technical, financial, and managerial requirements and all other requirements of the Act and Part 451 and finds that the Applicant sufficiently demonstrates compliance with the requirements.

The Commission concludes, therefore, that Applicant's request for a certificate of service authority to operate as an ARES in Illinois should be granted and should include the following authority:

CERTIFICATE OF SERVICE AUTHORITY

IT IS CERTIFIED that TLG Commodities LLC is granted service authority to operate as an Alternative Retail Electric Supplier as follows:
