

Leanne Meyer, PE

Bio

Leanne Meyer is a Vice President at MarkWest Energy Partners, LLC, in Denver, CO. She received her B.S. from the University of Tulsa in Petroleum Engineering and her Masters from Northwestern University in Radiation Physics and Civil Engineering. She is a professional engineer and has over 25 years in the energy business. Leanne has had the fortune to experience all sides of the industry including: exploration and production, refining, marketing, gas transmission and now, midstream. However, she claims she learned the most from the “guys in the field” with whom she worked when she was a roust-a-bout in West Texas and Oklahoma.

Currently she oversees several departments at MarkWest including pipeline integrity, environmental, safety, measurement and SCADA.
